List all soil fertility inputs, soil mix ingredients, foliar sprays, pest and disease control products, water additives, or other inputs used or intended for use on proposed organic and transitional fields. All inputs used or intended for use during the current year and in the previous three years must be listed on your Field History Sheet.

- Please submit labels (or full ingredients lists if not indicated on label) for each input with the Organic System Plan. This information must be part of the submitted Organic System Plan. Please note that a guaranteed analysis is not sufficient; ingredients must be listed.
- If inputs contain any biological ingredients available in GMO varieties, Non-GMO Affidavits must be submitted.
- If synthetic micronutrients are applied for soil fertilization, soil tests documenting any deficiencies must be submitted.
