

Crop Production Overview

C 2.0

EN-QS-F-181-2 Rev. F, 2025.11.03

Page 1 of 8

Operator #: 2487

Operation Name: Randy & Whilden Hughes

Date: 11/24/2025

At least 36 months of histories are required for all fields that are or will eventually be requested for certification (including fields that are currently transitional or conventional).

- Field histories must include the current year and show all fields, whether they are organic (O), in transition (T) or conventional (C), field numbers, size of each field (acres, hectares, etc.), crops planted and any inputs that were applied (must include specific dates and rates of application). Pastures requesting certification must also have corresponding field histories. Also attach maps of all fields which indicate directions, size and shape, buffer zones and adjoining land use. There must also be an overview map that shows all fields in relation to one another. The acres listed in the histories and maps must correspond.
- If the legal description/address for each field/farm is not located on the field history sheets and/or field maps, please submit a sheet that provides this information. If all fields are connected in an entire farm, one legal description/address is sufficient.

1. Status of operation:

- ☐ Organic only
- ☐ Mixed production (organic/non-organic – different crops)
- ☒ Parallel production (organic/non-organic – visually indistinguishable)

2. Number of owned acres?

2,419.33

3. Number of rented acres?

2,736.02

4. Number of acres rented out?

0

5. Total organic acres?

1,360.45

6. Total acres in transition?

0

7. Total conventional acres?

3,546.3

8. Are any fields managed exclusively on a crop share basis, as in the land is not owned or rented?☐ YES ☒ NO

If YES, please list the field ID's:

9. Total acres of non-agricultural/non-production land? 248.6

Please explain what this consists of (i.e. woodland, CRP, native grassland, marsh, etc.):

Woodlands, marsh, waterways

Page 2 of 8

10. Have you managed all fields requested for certification for 3 or more years?

☒ YES ☐ NO

If **NO**, you must submit signed statement(s) from the previous manager(s) stating the use and all inputs/seeds utilized for the previous three years on all newly rented or purchased fields. A completed and signed OCIA Prior Land Use Affidavit (PLUA) or equivalent documentation will address this.

If **NO**, please list the ID numbers of new fields here.

11. For renewing operations, are any fields under your management for 3 or more years being requested for certification for the first time?

☐ YES ☒ NO ☐ N/A new applicant

If **YES**, please list the ID numbers of the fields here.

12. **OCIA Standards** – Are all non-organic fields currently being transitioned to organic production according to the submitted conversion plan?

☐ YES ☐ NO ☐ Not Applicable

If **NO**, please explain the differences with the plan and the reasons it is not being followed.

13. If equivalency arrangements are requested, in which countries will crops be marketed? ☒ Not Applicable

14. Please complete the following table to indicate the specific crops and fields that will be requested for **organic certification**.

Please indicate the organic programs the crops and fields requested for certification. If they should be certified to all the equivalencies/programs selected in your Certification Application/Renewal Form, please indicate “all” in that column.

Crops Requested for Certification	Field/Pasture Numbers	Organic Program(s) (NOP, EU, US-CAN Equiv, etc)	Total Area Per Crop (indicate acres, hectares, mu)	Projected Yield (including unit of measure)	# of Organic Producers (grower groups only)
Soybeans	FL Cribben, OM1, OM2, OMNI seed isolation strips, turkey deer, caravilla	NOP	383.66	18934 bu	
Kernza	Avalon Kernza	NOP	3.1	930 lbs	
Seed Corn	OMNI, YOSS	NOP	319.1	19000 bu

Blue Corn	Jones	NOP, US-CAN	92.25	13837 Bu	
Rye/Vetch	Avalon, Glen Erin	NOP	36.5	2190 bu	
Sweet Corn	Goat Pasture	NOP	104	624 Ton	

15. Carryover Crop Summary

Organic certification must be maintained for any crops from a previous certification year for the crops to be eligible for organic sale. If switching certifiers to OCIA, be prepared to show documentation to show the crops are currently certified organic.

Complete this table for all previous year(s) crops you have in storage.
